Dear: Mom

Hello, Mom! How are you? How about Covid-19 in your country? How about your job? And Did you take care your health enough? For me and my family were fine, I'm currently studying online class every day. And next month I 'm close to the end of the second semester examination by online. It's really great for me. But I'm boring at home because I want to study at the school and I'm reminding the school open hopefully. my country will be reopening. Covid-19 in Cambodia was sustainability. I'm currently happy to studying my major and It's busy too and the subject that I want to learn is computer image design and computer programming C# but it is basic. I appreciate it I want to learn code than design.

Finally, I wish you have happiness in your live good luck every time and thank you for your supporting me everything to study at university. I'm so excited. I'm hopefully to see you soon and I am looking forward to your reply.

From Son
